JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

died of yellow fever en route soon after leaving Panama; one case died as vessel entered this port.

July 2, 1897; *Acapulco* held here on account of four deaths en route.

July 11, 1897, *San Juan* arrived from San Jose de Guatemala (about fifteen days); one case upon arrival; no history of other cases. *City of Sydney* also arrived from Panama with history of one case while in Panama. No other case reported, nor history of disinfection.

Each of these vessels had heavy passenger lists.

June, 1898, steamship *Newport* arrived from Panama; one case of yellow fever, an Englishman, cabin passenger, who died as the vessel entered the harbor. No history of other cases.

May 20, 1902, *City of Para* arrived from Panama and remanded for disinfection. Three days out the freight clerk (who had been ashore) had an attack, and died May 2. No other cases reported, and careful search by me failed to show any mosquitoes.

September 10, 1903, the case first reported.

Respectfully,

HUGH S. CUMMING,
Passed Assistant Surgeon, in Command.

Inspection service, Mexican border.
